Greetings!

I am delighted to introduce our latest edition of our Level Rite Concrete newsletter! This is a monthly publication to keep you in touch with news and developments which relate to concrete raising and after care tips. Plus exciting happenings in our communities.

Last month we had the pleasure of speaking to the Crown Point Rotary Club! Thank you so much for your hospitality and great questions about raising concrete! We look forward to being of service to you. You all were a fantastic audience! We look forward to returning soon!

August Happenings

Level Rite Concrete and National Night Out

GO BLUE! Munster Police Department and Choice Community Council held their 20th Annual National Night Out Against Crime Celebration on Tuesday, August 4. Great event for the community to show our support and thank our police officers. Thank you Officer James Ghrist for your dedication and service to our Town!

Click [here](#) for pictures of the event.

Brewing Business
Join Business Owners Who Are Building On Their Success

Brewing Business

Joe and I would like to invite YOU to attend an event at the Munster Chamber of Commerce. This Brewing Business event is August 20th and it focuses on successful businesses and their path for achieving success. This is a unique networking opportunity for new and existing business owners to learn about mentoring resources and local connections to grow your business. A panel of experts are assembled (Level Rite Concrete included) to take questions and business owners will share their personal stores and insights for building a successful business.

Our Services Showcase

Cleaning, Pressure Washing & Sealing

Pressure washing and sealing concrete! Great to enhance your entranceway and preserve your concrete! Long term sealing of your concrete will minimize cracks and adds great curb appeal! [For more information please click here to find out about Cleaning, Pressure Washing and Sealing.](#)

Concrete Grinding

Concrete Grinding is another option when concrete cannot be lifted. The grinding process will fix unlevelled concrete foundations, sidewalks, outdoor pavilions, patios, heavy mastic glue removal, and surface imperfections that you just want gone. [For more information please click here to find out about Concrete Grinding.](#)

Thank You For Your Business

We love our customers! Thank you for being so awesome!

For a chance to **WIN** this month's giveaway... Please leave a testimonial about our work on [Google+](#) or [Yelp](#). We appreciate your comments!

Concrete Raising After-Care Procedures (Tip #1):

Water Drainage Problems:

Structural engineers suggest having a minimum of 8 feet of positive drainage around your house. This includes down spout extensions (8 feet long). We ask you to add 8 foot extensions to your down spouts. This will protect your newly raised concrete and keep water from draining there which will undermine your foundation.

Thank you for joining us for our August newsletter. We appreciate YOU! We also welcome your comments and suggestions at any time!

Please help us spread the word - by forwarding this email to your family and friends. There is an easy link below.

We love our fans! Please remember to **LIKE** us on Facebook, **FOLLOW** us on Twitter and **CONNECT** with us on Google+.

We hope you have a great day!

Sincerely,

Joe and Jennifer
