Greetings!

Welcome to our Level Rite Concrete newsletter! This monthly publication will keep you in touch with news and developments which relate to concrete raising and after care tips. Plus exciting happenings in our communities.

So, who are you taking in the Super Bowl Carolina Panthers or the Denver Broncos? On the day of the Big Game, American's will consume 1.25 billion chicken wings, 8 million pounds of tortilla chips and 325 million gallons of beer! Whoa those are some pretty awesome numbers. After reading that I am going to add chicken wings to our game day menu :) February 7th here we come!

Looking forward to seeing you all there.

Back By Popular Request, Here is a bit about Level Rite Concrete **Level Rite Concrete, What A Difference An Inch Can Make**

Who We Are

Level Rite Concrete Lifting is your solution to lift, level, and stabilize failed or sunken concrete. We are based in Munster, IN and very integrated in our hometown communities of Munster and Crown Point, IN. Find out what others already know. You can count on Level Rite Concrete Lifting for prompt attention, integrity, quality work and the right solution at a fair price.

What We Believe

Concrete often fails due to poor soils, voids, tree roots, moisture, etc. With our polyurethane foam injection process, we can inject the foam into the soil, which will result in filling and expanding into all the voids, lifting and aligning the concrete, stabilizing the soil and concrete from moving again. The polyurethane foam, once injected into the soil, quickly integrates with the soil, and expands into a lightweight, stable, durable material, which will increase the soil load bearing capacities.

Technology

The polyurethane has an impressive lifespan, for it is not affected by water, does not change its shape or form, and will not break down over time as other materials often do. This technology is now the preferred concrete repair solution for residential, municipalities, DOT's and commercial projects. From projects on interstate highways, to a single concrete slab at a residence, our process is so cost effective, that no job is too big or too small.

Quality & Safety

We take pride in the fact that we provide the highest quality products and follow safety procedures each and every day. We ensure our equipment is the latest and greatest for our customers. Rest assured, service is our business!

What Keeps Us Up At Night

We understand that we do not exist without our customers. You deserve safe, long-lasting products along with our skills to make them successful. We can't rest until all questions are answered. Some companies just say they answer all inquiries, we actually do it! Test us!

Who Do We Want To Be

We want to be our customers' most trusted concrete repair company. We want to be the leader in this space for Northwest Indiana. We want to continue learning and creating. We strive to stand ahead of the curve and we want to be proud.

World of Concrete

Attending The Largest Concrete Show

Everything starts at World of Concrete (or so they say). It's the industry's only annual event dedicated to the commercial concrete and masonry industries. And, it jumpstarts Level Rite Concrete for 2016 by showing us the latest innovations, we will learn expert know-how and try out new products and equipment to complete our work better for our customers.

Thank You For Your Business!

We totally love our customers! Thank you for being so awesome!
